Natural Stone Gallery

# About us

Ismarco's story begins more than fifty years ago in the heart of Iran's stone industry. From our base in the Mahmoudabad Industrial Zone of Isfahan, we have grown into a company with three modern factories and a dedicated showroom, committed to bringing the timeless beauty of Iranian stone to the world.

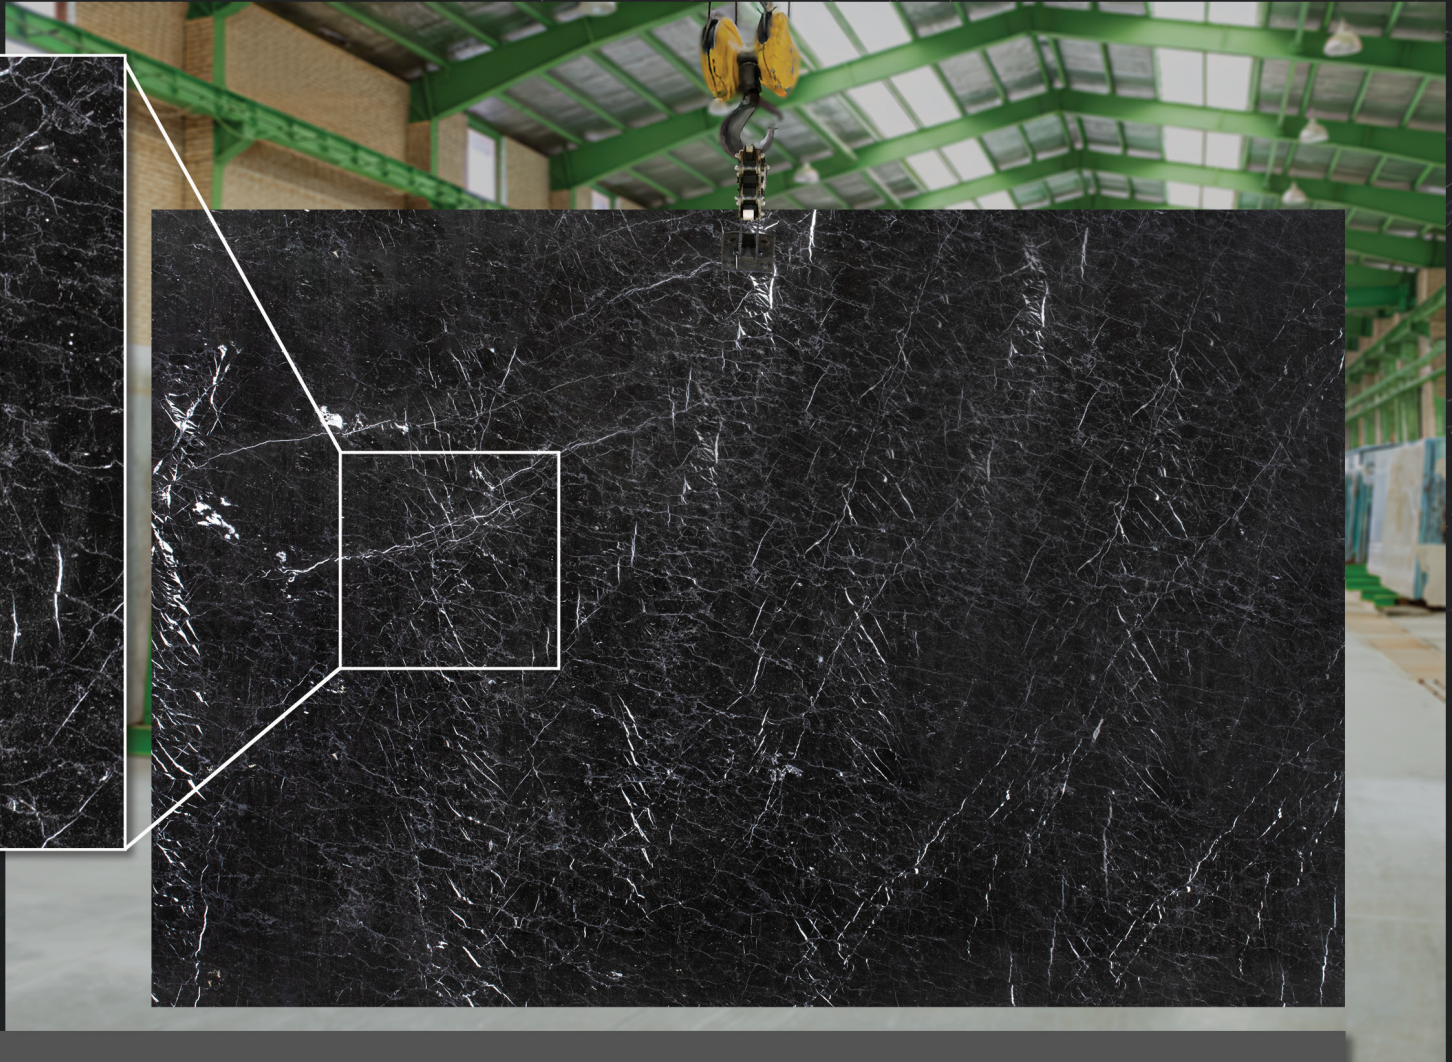

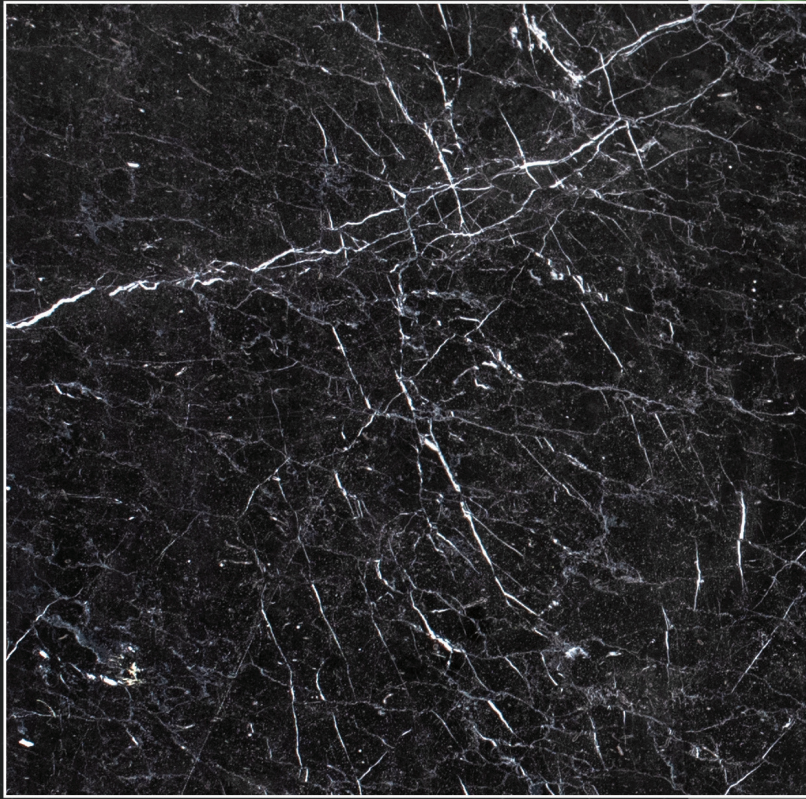

Our name itself carries our journey within it. Ismarco reflects both our roots and our vision. It speaks of International Stone Mastery, a promise to master the art of stone and share it globally. At the same time, it carries our guiding motto: Innovation Shapes Marble, expressing our belief that creativity and forward thinking give new form and meaning to this timeless material. At its core lies the syllable "MAR," a word that resonates across languages and cultures: Marble in English, Marmo in Latin, مرمریت in Persian, and Mermer in Turkish. The ending "Co" embodies our strength as a corporate organization, built to serve partners around the world.

But our vision goes beyond craftsmanship. We believe that natural stone is more than just a building material—it is a fragment of nature itself, preserved and carried from the Stone Age to modern life. That is why we dedicate ourselves to being a green company, striving toward a zero-carbon future. Natural stone requires far less energy to process compared to artificial alternatives, and by choosing it, we not only honor the earth's heritage but also contribute to the sustainability of life on our planet. To express this commitment, we embrace a second meaning of ISM: Infinite Nature, Sustainable Stone, Mindful of Earth.

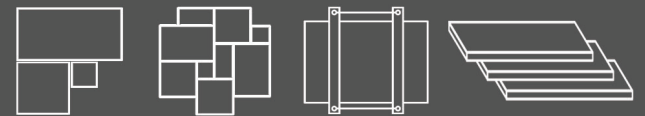

For decades, we have focused on processing the finest Iranian stones and presenting them in forms that meet every need. Whether in slabs, tiles, or raw blocks, our products are crafted with care, precision, and respect for nature. Sustainability, product diversity, and attention to customer needs are not just principles for us—they are the foundation on which our reputation has been built.

Today, with half a century of experience and a forward-looking vision, Ismarco continues to stand as a trusted partner for architects, designers, and distributors who seek natural beauty shaped by mastery, tradition, and innovation.
